

INDESTRUCTIBLE SINCE 1894

F-OMNISLOPE

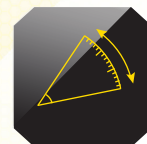

OMNI SLOPE

\$149.99

The ultimate forestry instrument, the Omni-Slope inclinometer measures angles in degrees, percent grade and the 66 foot forestry chain. The lightweight aluminum housing lends years of field reliability, and the precision pendulum give fast and accurate readings weather you're gauging the height of a tree, measuring avalanche danger, or judging the pitch of a cave.

Adventure Armor,
Aluminum Housing

Includes 180° range with
horizon up and down capabilities,
gradient percentage (% grade),
and the 66-foot forestry chain

Precision Pendulum

Adventure Armored

Illuminated Read-Out

All in One Scales
